6. New Business:

A. Consideration of 2018-2019 Annual Audit. A copy of Eadie & Payne's 2018-2019 Independent Auditor's Report was included in the agenda package. General Manager Davis noted that Brandon Ferrell (CPA, Eadie & Payne) reviewed in detail with the Board the 2018-2019 Independent Auditor's Report during the October 28th Finance and Budget workshop. At that time Mr. Ferrell answered questions that were presented by the Board. Should the Board accept the Audit; staff will upload the 2018-2019 Independent Auditor's Report to the Agency's website. Director Lehtonen suggested that the Agency discuss in the near future CalPers pension and the unfunded accrued liability (UAL). General Manager Davis stated that staff has had discussions on this topic and that this is a very complex issue. Finance Manager Thomas Todd asked if the Board would provide staff with a list of questions giving staff a better idea as to what the Board is most interested in. General Manager Davis suggested discussion on this topic during a Finance and Budget workshop or at an Engineering workshop. Director Ball stated that at the ACWA Fall Conference that is being held in December there will be a session at 9:30 a.m., addressing growing

retirement costs – pension financing solutions; he suggested that those Directors that are attending the conference might want to include this particular session in their schedule. Director Lehtonen made a motion, seconded by Director Fenn, accepting the 2018-2019 Independent Auditor's Report. Motion passed 7-0.

B. Discussion of San Geronio Pass Regional Water Alliance Participation: Fran Flanders (a resident of Cherry Valley) provided her opinion on why the Alliance is important. Director Castaldo stated that he requested this item to be placed on the agenda to discuss the Agency's participation in the Alliance. He stated that the intended purpose by Supervisor Marion Ashley of the Alliance was to come up with a plan on the City of Beaumont's sewer plant. The City of Beaumont and BCVWD have since settled their issues pertaining to the sewer plant and this is no longer an issue. He noted that the Alliance has been in existence for six years and does not seem to have accomplished anything with the exception of getting various entities together in one room for discussion purposes. He also noted that a number of entities have stepped away from the Alliance. He stated that he would like to see something noteworthy come out of it. Director's Fenn, Thompson, Ball, and President Duncan provided what their experiences were at the Alliance meetings that they have attended. It was noted that the Alliance meetings in the beginning were structured. It was a venue where different entities came together to discuss issues in an open format, but has now become more about what the Agency is doing and issues related to the Agency. Staff informed the Board that we have not had the ability to upload items to the Alliance website for some time, and that the website is in disarray. It was noted by Director Fenn that perhaps a better format would be to hold meetings with the various entities about two times a year, so that discussions would be targeted to all the entities allowing them to provide updates and discuss issues. President Duncan requested Director Lehtonen to express the Agency's opinions and recommendations to the members to the Alliance members. Director Lehtonen's main concern is to not project that the Agency is trying to control what the Alliance does, but to work in conjunction with the other representatives.
