October 14, 2021

To the Board of Directors
San Gorgonio Pass Water Agency
Beaumont, California

We have audited the financial statements of San Gorgonio Pass Water Agency (Agency) as of and for the year ended June 30, 2021, and have issued our report thereon dated October14, 2021. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated February 4, 2021, our responsibility, as described by professional standards, is to form and express opinions about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the Agency solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our report on internal control over financial reporting and on compliance and other matters date September 28, 2021 along with the Agency's financial statements.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and our network firms have complied with all relevant ethical requirements regarding independence.

Our firm has identified the self-review of nonattest services as a threat to independence. To eliminate this threat, the firm requires review by an independent partner, and acceptance of the report by management.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the Agency is included in Note 1 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during 2021. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements are.

- Management's estimate of the amortization of state water rights is based on actual and estimated water deliveries, transportation charge, Delta water charge, and capital cost component. We evaluated the key factors and assumptions used to develop the amortization of state water rights in determining that it is reasonable in relation to the financial statements taken as a whole.
- The net pension liability and related deferred inflows and outflows of resources are based on amounts determined by an actuarial valuation. Actuarial computations are based on a number of assumptions, such as the rate of return on investments, rate of inflation, and life expectancy.

We evaluated the key factors and assumptions used to develop the estimates and determined that they are reasonable in relation to the basic financial statements taken as a whole and in relation to the applicable opinion units.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the Agency's financial statements relate to:

- The disclosure of state water project in Note 3 to the financial statements. The disclosure presents a material commitment of future charges for capital and minimum operations, maintenance, and replacement costs related to the state water project.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. Management has corrected all identified misstatements.

In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. We did not identify misstatements as a result of our audit procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the Agency's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in a letter dated October 14, 2021.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the Agency, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the Agency's auditors.

Other Matters

This report is intended solely for the information and use of the Board of Directors and management of San Gorgonio Pass Water Agency and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

SAN GORGONIO PASS WATER AGENCY

San Gorgonio Pass Water Agency
Beaumont, California

Report on the Financial Statements

We have audited the accompanying financial statements of San Gorgonio Pass Water Agency (Agency), as of and for the years ended June 30, 2021 and 2020, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Agency's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and State Controller's *Minimum Audit Requirements for California Special Districts*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Agency as of June 30, 2021 and 2020, and the changes in financial position and its cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and information related to the pension and other postemployment benefits plan on pages 3-11 and 51-53, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Agency's basic financial statements. The organizational information and schedule of Board of Directors and insurance coverage on pages 54-55 are presented for purposes of additional information and are not a required part of the basic financial statements. The organizational information and schedule of Board of Directors and insurance coverage are the responsibility of management and have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 14, 2021, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

Riverside, California

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

The Agency

The San Gorgonio Pass Water Agency is one of 29 local government organizations, called State Water Contractors, who have contracted with the State of California to import water to their local service areas using the State Water Project. The Agency was created by the Legislature of the State of California under Senate Bill 8, Chapter 40, which was signed into law by Governor Edmund “Pat” Brown on April 19, 1961. The purpose for creating this public agency by special law was for the “planning, conservation, development, distribution, control and use of an adequate water supply for the public good and for the protection of life and property therein.” As part of the act, the Agency was given taxing authority similar to the taxing power of other local governments.

The Agency has entered into a contract with the State of California Department of Water Resources to receive an annual allotment of 17,300 acre-feet from the State Water Project. However, water did not get delivered to the region, which extends from Calimesa through the San Gorgonio Pass area to Cabazon, until the completion of the East Branch Extension Phase 1 in 2003. In 2018, the Department of Water Resources completed the construction of Phase 2, which increased the capacity of the facilities to deliver water by adding an additional pipeline, an additional reservoir, additional pumps and expanding an existing reservoir.

In 2020, the Agency completed construction and started using its new recharge site on the corner of Beaumont Avenue and Brookside in Beaumont, named the San Gorgonio Recharge Facility at Brookside. This facility was built to be able to recharge water, most often during wet years, but also as necessity arises because of operational constraints.

The Basic Financial Statements

The San Gorgonio Pass Water Agency is a special purpose government organization (Special District) engaged only in activities that support themselves through user fees and tax levies. Accordingly, the accompanying financial statements are presented in the format prescribed for proprietary funds by the Governmental Accounting Standards Board.

These financial statements consist of three interrelated statements designed to provide the reader with relevant, understandable data about the Agency’s financial condition and operating results. They are the Statement of Net Position; the Statement of Revenues, Expenses and Changes in Net Position; and the Statement of Cash Flows.

The Statement of Net Position presents the Agency’s assets and liabilities and the difference, or net, between what is owned and what is owed as of the last day of the Agency’s fiscal year. The Statement of Revenues, Expenses and Changes in Net Position describes the financial results of the Agency’s operations for the years reported. The results, or changes in net assets, are the increases or decreases in the bottom line of the Statement of Net Position.

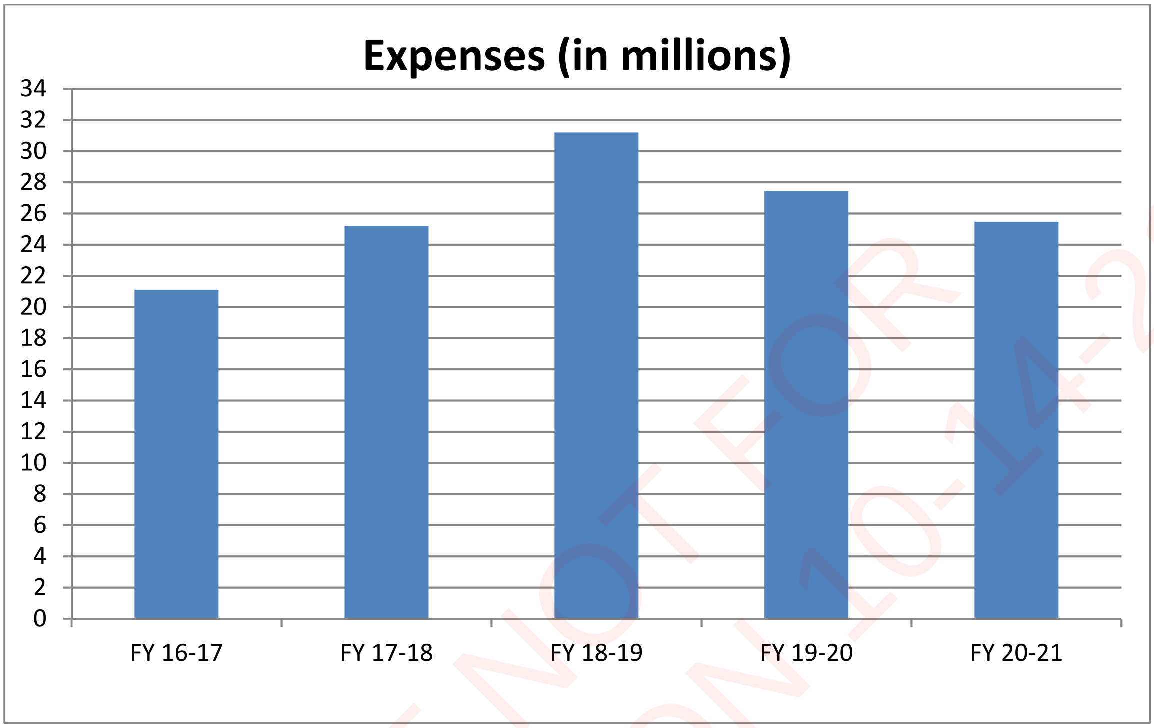
The Statement of Cash Flows conveys to financial statement readers how the Agency managed cash resources during the year. This statement converts the Change in Net Position presented on the Statement of Revenues, Expenses and Changes in Net Position into actual cash provided by or used for operations. The Statement of Cash Flows also details how the Agency obtains cash through financing and investing activities and, conversely, how cash is spent for these purposes.

Summary Financial Information and Analysis

The Agency exists for two major purposes: one is to deliver water to retail customers, and the other is to pay its portion of the indebtedness and maintenance and operations of the State Water Project. At this time, these two different purposes use two distinct types of income to sustain their related activities. Because of this, the financial statements typically look a bit different from other organizations that have only one major type of income.

The Agency receives two major sources of funding: revenue from water sales, and revenue from property taxes. Revenue from water sales falls into the operations portion of the statements, and revenue from property taxes falls into the non-operations portion of the statements.

However, the expenses to maintain the operations portion of the Agency's efforts exceed its income from operations at this time. Examination of just the operations portion of the statements reveals what looks like a loss. However, tax revenue, by design, has been enacted to pay for some of the operations expense, but is relegated to the non-operations portion of the statements by accounting convention. So, even though operations look like a loss, in actuality, by viewing the statements as a whole, it is clear that the Agency is receiving at least enough to cover its expenses.



Graph of Combined Operating and Non-Operating Expenses

By reviewing the table below, it is possible to see that overall income (Operating and Non-operating) totals $37.56 million for FY 2020-21, an increase of $0.55 million from the previous fiscal year. Overall expenses (Operating and Non-Operating) totaled $25.47 million for FY 2020-21, a decrease of $2.12 million from the previous fiscal year. The resulting Net Income was $12.09 million, an increase from the previous fiscal year of $2.67 million, due mostly to tax revenue.

The Agency purchased and delivered about 8,500 AF of water FY 2020-21, significantly less than in FY 2019-20. Looking ahead, FY 2021-22 is expected to be significantly drier, as the State Water Project allocation for 2021 was 5%, and the allocation for 2022 might start at 0%.

Total Assets and Deferred Outflows of Resources for FY 2020-21 were $205.91 million, an increase of $11.81 million from the previous fiscal year. This is divided into four categories: Current Assets (cash and investments that can be liquidated in 12 months), Restricted Assets (assets that are designated for a particular purpose), Capital Assets (assets that have a life longer than 1 year and are not intended for sale during the normal course of business) and pension and OPEB-related Deferred Outflows of Resources (the result of the new GASB rules). Current Assets increased $0.04 million, Restricted Assets increased $3.90 million, Capital Assets increased $7.72 million, Deferred Outflows of Resources increased $0.15 million.

Current Liabilities were $0.36 million, a decrease of $0.13 million from the previous fiscal year. Long Term Liabilities were $0.71 million, a decrease of about $.03 million.

Pension and OPEB-related Deferred Inflows of Resources were about $0.22 million, a decrease of about $0.11 million. Therefore, Net Position (the combination of Total Assets, Liabilities, Deferred Inflows and Deferred Outflows) for FY 2020-21 were $204.63 million, a net increase of $12.09 million.

(in millions)

	6/30/2021	6/30/2020	6/30/2019
Current Assets	16.44	16.39	16.16
Restricted Assets	64.63	60.73	54.06
Capital Assets	124.10	116.38	114.81
Deferred Outflows	0.74	0.60	0.51
Current Liabilities	0.36	0.49	1.21
Noncurrent Liabilities	0.71	0.74	1.15

Net Position	204.63	192.54	183.12
Operating Revenues	3.37	5.04	4.55
Operating Expenses	(25.36)	(27.50)	(31.07)
Non-Operating Revenues			
Interest	0.45	1.30	1.33
Property Taxes	33.21	29.13	28.25
Miscellaneous	0.53	1.54	1.36
Non-Operating Expenses	(0.11)	(0.09)	(0.08)
Change in Net Position	12.09	9.42	4.35

The past few years have seen new reporting standards regarding pension liabilities and other post-employment benefits. The new standards change the way pension expenses and liabilities are recorded, and this change has had a minor impact on the statements of the Agency.

Previously, contributions to the CalPERS defined benefit pension plan were recorded as current expenses. Notes to the financial statements provided information about the composition and status of the investment pool that the Agency was assigned to by CalPERS.

Now, in an attempt to more accurately categorize the transactions associated with current and future pension costs, Agency contributions to pension plans have been reclassified. In the Agency's financial statements, current year pension contributions more closely match the year they impact pension balances. In addition, the statements include deferred outflows (in essence, future expenses) and deferred inflows (in essence, future credits), as well as a long-term pension liability.

The potential future pension cost is determined by an actuarial study, which considers a number of factors, including current employees of the Agency, their years of service, retired employees of the Agency, and estimates for future earnings of investments made by CalPERS. The Agency has been assigned to an investment pool that is managed by CalPERS. The estimate of the pension liability of the entire pool is a current estimate of the difference between the estimated pension cost and the funded status of the pool. The Agency is allocated a proportionate share of the entire pool. The proportionate share is listed as a Noncurrent Liability in the Liability section of the Net Assets statement. Future contributions to the unfunded liability could change the classification of the fund balance.

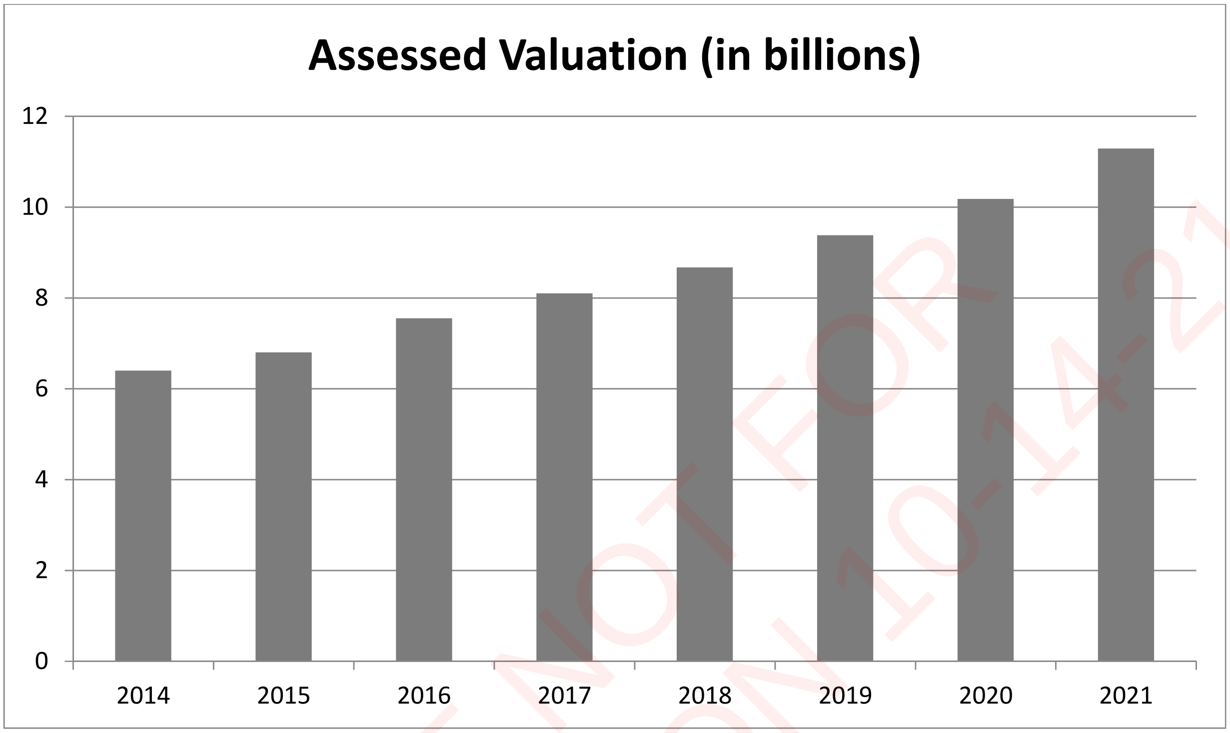
For Other Post-Employment Benefits (OPEB), the Agency joined an investment pool sponsored by CalPERS to build a trust fund to pay for future OPEB expenses. The Agency's first contribution to the pool, California Employers' Retiree Benefit Trust (CERBT), was made in 2009. Annual contributions were made in accordance with GASB Statement No. 45, and contributions to the trust and direct payments for health care costs were recorded as current expenses.

Starting with FY 2018-19, GASB Statement No.75 took effect, which is an attempt to more accurately categorize the transactions associated with current and future OPEB costs. Agency contributions to CERBT and direct expenses have been reclassified, and the statements include deferred outflows and deferred inflows, as well as a long-term OPEB liability. The estimate of OPEB liability is a current estimate of the difference between the estimated OPEB cost and the funded status of CERBT. This amount is listed as a Noncurrent Liability in the Liability section of the Net Assets statement. Future contributions to CERBT could change the classification of the balance of the Agency's net OPEB obligation.

The Agency's involvement with CERBT requires that an actuarial study to determine the Agency's potential future OPEB costs be made every 2 years. The study also estimates the current level of funding, to help gauge the Agency's progress in fully funding its OPEB obligations.

Assessed Valuation

The following chart reflects the Agency's assessed property tax valuations. Assessed valuations increased significantly from the years ending June 30, 2005 to 2008; however, as a result of the economic downturn, assessed values leveled off for the year ending in 2009, and declined by about 15% by the year ending in 2013. A recent analysis showed that the assessed values in the Agency's area are increasing, and while they usually fluctuate similarly to rest of the Inland Empire, a significant increase in both residential and commercial construction activity has resulted in a significant increase in assessed values.



Categories of Assets

The Agency is required to present its assets in three categories: Invested in Capital Assets, Restricted Assets and Unrestricted Assets.

Invested in Capital Assets

At June 30, 2021, Capital Assets totaled $124.10 million (net of Accumulated Depreciation and Amortization) and consisted of Investment in State Water Rights, Utility Plant in Service, and Construction in Progress. Utility Plant in Service is divided into additional categories of Land and Rights of Way, Source of Supply, Transmission and Distribution, Buildings, Furniture and Fixtures, Technical Equipment and Transportation Equipment. The table on the next page groups these assets by whether they are being depreciated or amortized, or not.

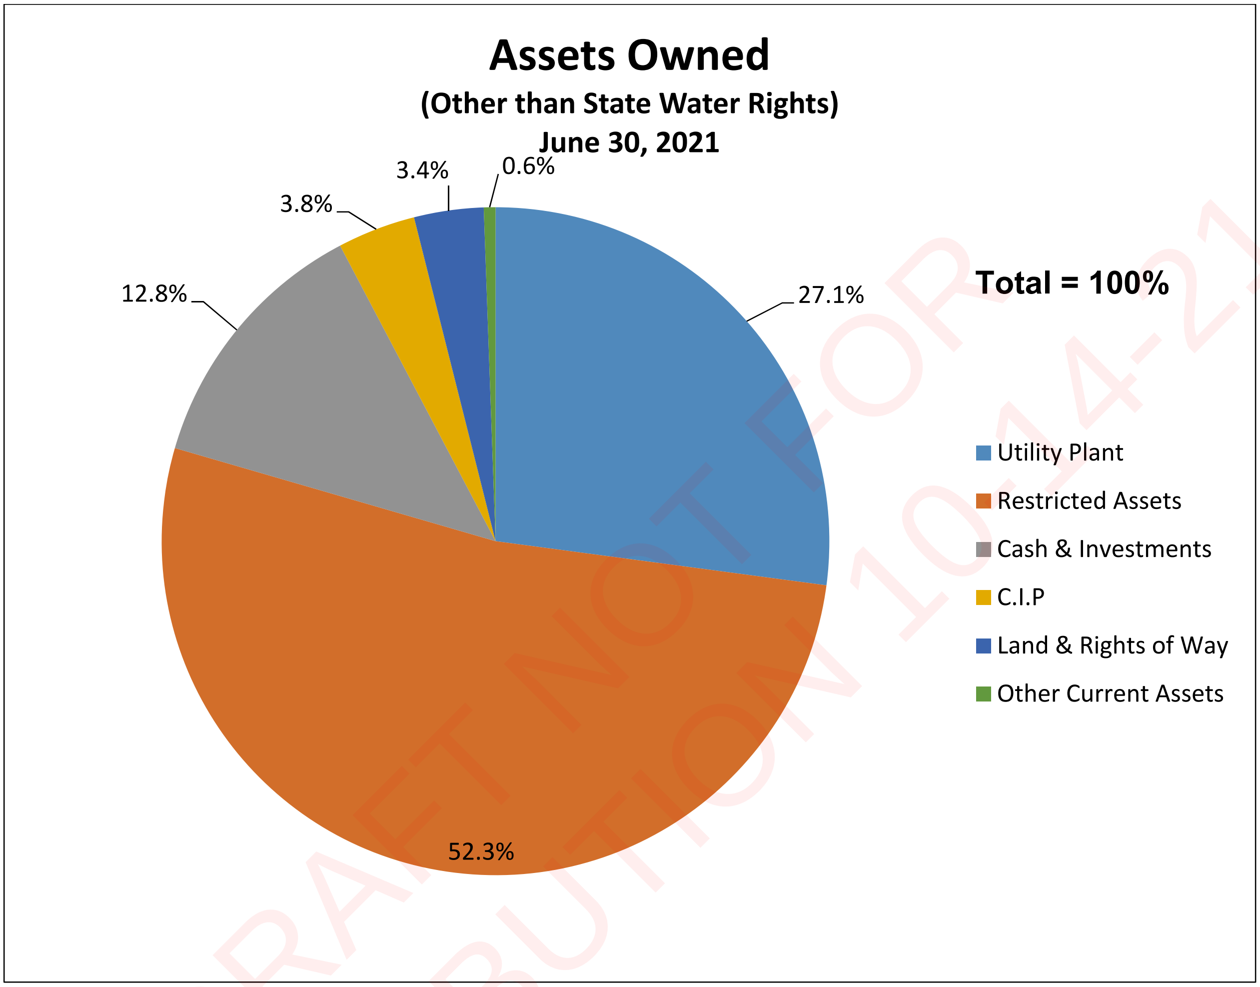
Capital Asset Activity for the Fiscal Year

	Balance June 30, 2019	Balance June 30, 2020	Additions	Deletions	Balance June 30, 2021
Capital Assets, not being depreciated					
Land and Rights of Way	4,138,966	4,138,966	1,977	-	4,140,943
Construction in Progress	12,122,281	14,027,985	1,961,354	11,347,250	4,642,090
Total Capital Assets, not being depreciated	16,261,247	18,166,951	1,963,331	11,347,250	8,783,033
Capital Assets, being depreciated/amortized					
Investment in State Water Rights	149,062,702	154,192,311	6,317,618	-	160,509,929
Source of Supply	15,758,338	15,774,603	6,643,769	-	22,418,372
Transmission and Distribution	1,351,614	1,351,614	7,653,654	-	9,005,268
Buildings and Improvements	1,645,293	1,629,028			1,629,028
Furniture and Fixtures	129,857	129,857	17,180	20,497	126,541
Technical Equipment	94,439	94,439	-	3,250	91,189
Transportation Equipment	78,613	78,613	-	-	78,613
Total Capital Assets being depreciated or amortized	168,120,856	173,250,465	20,632,221	23,747	193,858,939
Total Capital Assets	184,382,104	191,417,416	22,595,552	11,370,997	$ 202,641,972

The Agency made payments to the Department of Water Resources during the year totaling $25.44 million. This amount included expenditures for water purchases, as well as payments for indebtedness, and operations and maintenance of the State Water Project.

State Water Project deliveries through the East Branch Extension and the Cherry Valley Pump Station to the Agency service area started in July, 2003. Deliveries to retailers in FY 2020-21 totaled 8,472 AF, and included deliveries to Yucaipa Valley Water District through facilities jointly owned and operated with the San Bernardino Valley Municipal Water District. The allocation for 2020 was significantly lower than 2019, so the Agency did not have as much water to deliver this fiscal year.

Additions to Construction in Progress totaled $1.96 million between July 1, 2020 and June 30, 2021. The primary projects currently in Construction in Progress include improvements to the East Branch Extension Phase 2 project and participation rights in a feasibility study to build a new reservoir named Sites Reservoir to increase the reliability of the State Water Project. A number of projects were completed this fiscal year, the largest being the San Gorgonio Recharge Facility at Brookside. Overall, Construction in Progress decreased by approximately $11.3 million, as projects were completed and capitalized or expensed.



Restricted Assets

The Agency had Restricted Assets of $64.63 million, which consisted of tax proceeds that were levied for State Water Project payments, less actual State Water Project related expenditures.

Unrestricted Assets

The Agency had Unrestricted Assets of $16.44 million, which consisted primarily of water sales, general purpose tax proceeds and investment income, less general and administrative expenses not related to State Water Project expenditures.

Contacting the Agency's Financial Management

This financial report is designed to provide our customers, taxpayers, and creditors with an overview of the agency's financial operations and condition. If you have questions about this report or need additional information, please contact the Agency's Chief Financial Officer at 1210 Beaumont Ave., Beaumont, California 92223.

The accompanying notes are an integral part of these financial statements.

NOTE 1- REPORTING ENTITY

The San Gorgonio Pass Water Agency (the "Agency"), a special district of the state of California, is one of 29 state water contractors created by the state legislature. The Agency will ultimately manage water resources and supply water to local water districts. The Agency's service area extends from Calimesa to Cabazon through the San Gorgonio Pass area in Riverside County (the "County").

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

<u>Basis of Accounting and Measurement Focus</u>
The Agency reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the Agency is that the costs of providing goods or services to the general public on a continuing basis (including depreciation) be financed or recovered primarily through user charges. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized in the period incurred. An enterprise fund is accounted for on the flow of economic resources measurement focus. This means that all assets and liabilities associated with the activity (whether current or noncurrent) are included on the statements of net position.

The Agency distinguishes operating revenues and expenses from those revenues and expenses that are nonoperating. Operating revenues are those revenues that are generated by water sales, while operating expenses pertain directly to the furnishing of those services. Nonoperating revenues and expenses are those revenues and expenses generated that are not directly associated with the normal business of supplying water services.

<u>Cash and Cash Equivalents</u>
For the purpose of the statements of cash flows, the Agency considers all short-term debt securities purchased with an original maturity of three months or less to be cash equivalents. The Agency invests funds with the State of California's Local Agency Investment Fund (LAIF). Due to the high liquidity of this investment, the funds are classified as cash equivalents. For credit risk purposes, the fund is not rated.

<u>Investments</u>
Investments are reported in the accompanying statements of net position at fair value based on the last reported sales price published on the national exchange. Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

<u>Accounts Receivable</u>
Accounts receivable consists of amounts owed by local districts in the regular course of business operations. Accounts receivable is stated net of an allowance for doubtful accounts. The Agency considers accounts receivable to be fully collectible and no allowance for doubtful accounts is provided in these financial statements.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property Taxes

The County of Riverside Assessor's Office assesses all real and personal property within the County each year. The County of Riverside Tax Collector's Office bills and collects the Agency's share of property taxes and assessments. The County of Riverside Treasurer's Office remits current and delinquent property tax collections to the Agency throughout the year. Property tax in California is levied in accordance with Article 13A of the State Constitution at 1.0 percent of countywide assessed valuations.

Property taxes receivable at year-end are related to property taxes collected by the County of Riverside, which have not been credited to the Agency's cash balance as of June 30, 2021. The property tax calendar is as follows:

Lien date:		January 1
Levy date:		July 1
Due date:	First installment	November 1
	Second installment	February 1
Collection date:	First installment	December 10
	Second installment	April 10

The County will designate property taxes relating to debt service (restricted) or general purposes. Funds have been established by the Agency to account for the use of these designated assets. As of June 30, 2021, certain taxes levied by the County and allocated to the Agency remain uncollected. The Agency considers these property taxes to be fully collectible and no allowance is provided in these financial statements.

Capital Assets

Capital assets acquired and/or constructed are capitalized at historical cost. Agency policy has set the capitalization threshold for reporting capital assets at $5,000. Donated assets are recorded at estimated acquisition value at the date of donation. Upon retirement or other disposition of capital assets, the cost and related accumulated depreciation are removed from the respective balances and any gains or losses are recognized.

Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Assets	Years
Pipelines	20 - 40
Buildings	25
Spreading ground facilities	20
Furniture and fixtures	5 - 10
Technical equipment	5
Transportation	5

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Participation rights are being amortized on a unit-rate basis. The unit-rate has been determined by dividing the total estimated capital costs to be charged to the Agency by total estimated water deliveries over the project repayment period. The resulting rate, which will be adjusted periodically to reflect changes in estimates, would then be applied to actual water deliveries in the current year.

Construction in progress includes all capitalized costs for expenditures directly incurred to bring a capital asset to a useable condition. These capitalized costs will be recorded to capital assets when the asset is operational. At that time, the costs will be depreciated or amortized over the respective capital asset's useful life.

Accrued Vacation and Sick Leave
The Agency has a policy whereby an employee can accumulate unused sick leave and vacation. Sick leave is to be used for extended periods of sickness; however, upon termination or retirement, a portion will be paid as additional benefits to the employee. At retirement or termination, employees will be paid for 50 percent of the then unused sick leave up to the maximum 480 hours at their regular payroll rates in effect at the date of termination. The Agency has provided for these future costs by accruing 50 percent of the earned and unused sick leave up to the maximum number of hours and 100 percent of the earned and unused vacation.

Pension Accounting
For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by California Public Employees' Retirement System (CalPERS) Financial Office. For this purpose, benefit payments, including refunds of employee contributions, are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)
For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the CalPERS plan governed by the Public Employees' Medical & Hospital Care Act (PEMHCA) and additions to/deductions from PEMHCA's fiduciary net position have been determined on the same basis as they are reported by PEMHCA. For this purpose, PEMHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position

The financial statements utilize a net position presentation. The net position is categorized as follows:

Net Investment in Capital Assets, *including State Water Project* costs - This component of net position consists of capital assets, net of accumulated depreciation and reduced by any debt outstanding against the acquisition, construction, or improvement of those assets.

Restricted for State Water Project - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position - This component of the net position consists of a net position that does not meet the definition of restricted or net investment in capital assets.

Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for use, it is the Agency's practice to use restricted resources first, then unrestricted resources as they are needed.

Budgetary Policies

The Agency adopts an annual nonappropriated budget for planning, control, and evaluation purposes. Budgetary control and evaluation are affected by comparisons of actual revenues and expenses with planned revenues and expenses for the period. Encumbrance accounting is not used to account for commitments related to unperformed contracts for construction and services.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes to the financial statements. While management believes these estimates are adequate, actual results could differ from those estimates.

NOTE 3 - STATE WATER PROJECT

The Agency has contracted with the State Department of Water Resources to participate in the State Water Project to convey water from Northern California into the Southern California area. This participation requires payments in varying amounts by the Agency for many years into the future, including capital costs in connection with the transportation facilities, conservation (O.M.P. and R.) costs, and variable costs for the actual delivery of water.

The Agency has been billed formally through calendar year 2021 only. The policy of the Agency is not to accrue any amounts which are due after the fiscal year-end. The payments which have been billed but are not reflected on the books and are not due until after the fiscal year-end of the Agency are approximately as follows:

NOTE 3 - STATE WATER PROJECT (Continued)

The Agency has committed to purchase other components of water that may become available at reasonable prices in the future. The future payments for this excess water are not determinable at this time.

NOTE 4 - CASH, CASH EQUIVALENTS, AND INVESTMENTS

The Agency's investment practices are prescribed by various provisions of the California Government Code and by administrative policies. The Agency's investment policy is approved annually by the Board.

Cash, cash equivalents, and investments as of June 30, 2021 and 2020 are included in the statements of net position as follows:

	2021	2020
Cash and cash equivalents - unrestricted	$ 15,743,509	$ 15,391,615
Cash and cash equivalents - restricted	30,532,769	20,866,184
Total cash and cash equivalents	46,276,278	36,257,799
Investments	30,758,333	36,791,110
	$ 77,034,611	$ 73,048,909

For purposes of the following discussion, these accounts have been classified as follows:

	2021	2020
Deposits	$ 1,895,910	$ 851,816
Investments	75,138,701	72,197,093
	$ 77,034,611	$ 73,048,909

NOTE 4 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

Investments Authorized by the Agency's Investment Policy
Under the provisions of the Agency's investment policy, adopted by Board Resolution No. 2015-10 in September 2015, which is in accordance with California Government Code Sections 53600 through 53686 et seq., the types of investments authorized for deposit are identified in the following table:

Authorized Investment Type	Maximum Maturity
U.S. Treasury	2 years
Federal agency	-
Municipal bonds	-
Negotiable certificates of deposit	3 years
Repurchase agreements	1 year
Medium term notes	5 years
Money market mutual funds	-
Local Agency Investment Fund (LAIF)	-
CalTRUST short-term fund	2 years
CalTRUST medium-term fund	3 ½ years

Concentration of Credit Risk
There were no investments in any one issuer, other than U.S. Treasury Securities, LAIF and CalTRUST that represent five percent or more of the total investments of the Agency at June 30, 2021 and 2020.

Custodial Credit Risk
The Agency maintains deposits with financial institutions in excess of federal depository insurance limits. California law requires banks and savings and loan institutions to pledge government securities with a market value of 110 percent of the Agency's cash on deposit or first trust deed mortgage notes with a market value of 150 percent of the deposit as collateral for these deposits. Under California law, this collateral is held in a separate investment pool by another institution in the Agency's name and places it ahead of general creditors of the institution.

NOTE 4 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

Interest Rate Risk

Interest rate risk is the possibility that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As a means of highlighting exposure to interest rate risk, the current values of all securities are reported quarterly to the Board for investments. Investment fair value and duration at June 30, 2021 and 2020, other than investments in LAIF and CalTRUST, are as follows:

Authorized Investment Type	2021	Effective Duration
U.S. Treasury Securities	$ 2,055,453	2021
U.S. Treasury Securities	1,995,320	2022
Negotiable certificates of deposit	2,239,595	2021
Negotiable certificates of deposit	3,259,078	2022

Authorized Investment Type	2020	Effective Duration
U.S. Treasury Securities	$ 2,074,354	2021
U.S. Treasury Securities	1,991,080	2022
US Government Bonds	1,005,790	2023
Negotiable certificates of deposit	2,490,769	2020
Negotiable certificates of deposit	4,790,862	2021
Negotiable certificates of deposit	3,290,870	2022

NOTE 4 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

Disclosures Relating to Credit Risk
Information about the risk that an issuer or other counterparty to an investment will not fulfill its obligations is provided by the following tables:

Authorized Investment	Amount	AAf	Aaa	A(1-3)	Not Rated	% of Portfolio
As of June 30, 2021:						
Cash	$ 100	$ -	$ -	$ -	$ 100	N/A

	$ 73,048,909	$ 21,147,385	$ 5,071,224	$ 11,424,217	$ 35,406,083	100.00%

NOTE 4 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

Deposits

The California Government Code and the Agency's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure Agency deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits. At June 30, 2021 and 2020, the carrying amount of the Agency's deposits was $1,895,910 and $851,816, respectively, and the bank balances were $1,942,023 and $890,883, respectively. The Agency has cash in financial institutions insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000, and the remaining balance is collateralized in accordance with the California Government Code.

LAIF

The Agency is a voluntary participant in LAIF that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. For LAIF's annual financial report, contact the California State Treasurer at 915 Capitol Mall, Room 106, Sacramento, California 95814.

CalTRUST

The Agency is participating in CalTRUST, a Joint Exercise of Powers Agreement of the Investment Trust of California. The principal executive office is located at 1100 K Street, Suite 101, Sacramento, California 95814. CalTRUST is subject to the California Joint Exercise of Powers Act. Each participant in CalTRUST must be a California Public Agency. The purpose of CalTRUST is to consolidate investment activities of its participants and thereby reduce duplication, achieve economies of scale and carry out coherent and consolidated investment strategies through the issuance of shares of beneficial interest in investments purchased by CalTRUST.

CalTRUST currently has a board of trustees that consists of 7 trustees who are responsible for the overall management, supervision, and administration of CalTRUST including formulation of investment and operating policy guidelines of the funds.

The Agency has invested in the short-term fund and the medium-term fund. The short-term fund has a targeted portfolio duration of 0 to 2 years, and the medium-term fund has a targeted portfolio duration of 1½ to 3½ years. Investment strategies are to attain as high a level of current income as is consistent with the preservation of principal.

NOTE 4 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

The shares in the two funds are not registered under any federal or state securities law nor under the Investment Company Act of 1940, and are thus not subject to the various protections of the 1940 Act which apply to certain pooled vehicles such as money market funds and other mutual funds. The short-term and medium-term funds are valued at net asset value which is calculated by dividing the total value of the securities and other assets, less any liabilities, by the total outstanding shares of each fund. Liabilities include all accrued expenses and fees of each fund. The value of the portfolio securities is determined on the basis of the market value of such securities or, if market quotations are not readily available, at fair value under guidelines established by the Trustees. Investments with short remaining maturities may be valued at amortized cost, which the Trustees have determined to equal fair value.

Short-term fund deposits will be allowed to be invested on the business day they are received, while the medium-term fund deposits may be invested once per month on the last business day. Short-term funds can be redeemed at net asset value per share at the next determined date and/or time of calculation. Medium-term fund withdrawals can only occur once per month on the last business day of the month, provided that notice of intent to withdraw is delivered prior to five business days before month end. Shares will be redeemed at net asset value per share determined by the accountant on the last business day of each month. For both funds, the investment will remain in the fund until the day they are wired to the Agency. In the event of an emergency as defined by the Trustees, withdrawals may be made at such times and upon such prior notice within parameters defined by the Trustees. CalTRUST may, and is authorized by each participant to redeem shares owned by such participant (i) to the extent necessary to reimburse CalTRUST for any loss it has sustained by reason of the failure of such participant to make full payment for shares purchased by such participant, (ii) to the extent necessary to collect any charge relating to a transaction effected for the benefit of such participant which is applicable to shares, or (iii) as otherwise deemed necessary and desirable by the Trustees for CalTRUST to effectively carry out its obligations under the agreement, comply with applicable law, or any other obligations in connection with the affairs of CalTRUST. Redemption payments may be made in whole or in part in securities or other property of the funds. Participants receiving any such securities or other property on redemption will bear any costs of sale. Transfers among the funds will be considered a withdrawal from one fund and a deposit to another fund subject to restrictions and limitations of a withdrawal and deposit.

NOTE 4 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

Investments

Fair Value of Investments

GASB Statement No. 72, *Fair Value Measurement and Application* (GASB 72), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under GASB 72 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets as of the measurement date in active markets that the Agency has the ability to access. Fair values are determined using fund manager estimates.
Level 2	Inputs to the valuation methodology include quoted prices for similar assets in active markets; quoted prices for identical or similar assets in inactive markets; and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets.
Level 3	Inputs to the valuation methodology are unobservable and include situations where there is little, if any, market activity for the investment.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodologies used at June 30, 2021 and 2020.

Money markets: Valued at $1 per share in accordance with industry practice.

U.S. government bonds: Valued at the closing price reported in the active market on which the individual bonds are traded

U.S. Treasury securities: Valued at the closing price reported in the active market on which the individual securities are traded

Negotiable certificate of deposit: Valued at the closing price reported on the active market on which the negotiable paper is traded

NOTE 4 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

CalTRUST funds: The fair value of the Agency's investment in CalTRUST is based upon the net asset value (NAV) of shares held by the Agency at year-end. The net asset value per share is computed by dividing the total value of the securities and other assets, less any liabilities, by the total outstanding shares. Liabilities include all accrued expenses and fees, including expenses of the trust. The market value of portfolio securities is determined on the basis of the market value of such securities, or if market quotations are not readily available, at fair value under guidelines established by the trustees. Investments with short remaining maturities may be valued at amortized cost which the CalTRUST Board has determined to equal fair value.

State pooled funds (Local Agency Investment Fund): The fair value of the Agency's investment in this pool is based upon the Agency's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Agency believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Agency's investment assets at fair value as of June 30, 2021:

	Level 1	Level 2	Level 3	Total
U.S. Treasury securities	4,050,773	-	-	4,050,773
Negotiable certificates of deposit	5,498,673	-	-	5,498,673
CalTRUST short-term fund	-	21,208,887	-	21,208,887
State pooled funds (Local Agency Investment Fund)	-	44,380,368	-	44,380,368
	$ 9,549,446	$ 65,589,255	$ -	$ 75,138,701

The following table sets forth by level, within the fair value hierarchy, the Agency's investment assets at fair value as of June 30, 2020:

	Level 1	Level 2	Level 3	Total
U.S. government bonds	$ 1,005,790	$ -	$ -	$ 1,005,790
U.S. Treasury securities	4,065,434	-	-	4,065,434
Negotiable certificates of deposit	10,572,501	-	-	10,572,501
CalTRUST short-term fund	-	21,147,385	-	21,147,385
State pooled funds (Local Agency Investment Fund)	-	35,405,983	-	35,405,983
	$ 15,643,725	$ 56,553,368	$ -	$ 72,197,093

At June 30, 2021 and 2020, the Agency had no investments in repurchase and reverse repurchase agreements and did not invest in such during the years then ended.

NOTE 5 - CAPITAL ASSETS

For the year ended June 30, 2021, the changes in capital assets for the Agency were as follows:

	Balance July 1, 2020	Additions	Disposals	Balance June 30, 2021
Non-depreciable capital assets				
Land and rights of way	$ 4,138,967	$ 1,977	$ -	$ 4,140,944
Construction in progress	14,027,984	1,961,354	11,347,249	4,642,089
	18,166,951	1,963,331	11,347,249	8,783,033
Depreciable capital assets				
Investment in State Water Project	154,192,311	6,317,618	-	160,509,929
Source of supply	15,774,603	6,643,769	-	22,418,372
Recharge facilities	1,351,614	7,653,654	-	9,005,268
Technical equipment	94,439	-	3,250	91,189
Office building	1,508,644	-	-	1,508,644
Solar equipment	120,384	-	-	120,384
Furniture and fixtures	129,857	17,180	20,497	126,540
Transportation equipment	78,613	-	-	78,613
	173,250,465	20,632,221	23,747	193,858,939
	$ 191,417,416	$ 22,595,552	$ 11,370,996	$ 202,641,972

For the year ended June 30, 2021, the changes in accumulated depreciation and amortization for the Agency were as follows:

	Balance July 1, 2020	Additions	Disposals	Balance June 30, 2021
Depreciable capital assets				
Investment in State Water Project	$ 65,155,159	$ 2,310,279	$ -	$ 67,465,438
Source of supply	7,399,330	698,446	-	8,097,776
Recharge facilities	1,115,082	437,103	-	1,552,185
Technical equipment	94,439	-	3,250	91,189
Office building	969,361	60,442	-	1,029,803
Solar equipment	114,367	6,017	-	120,384
Furniture and fixtures	125,613	5,169	20,496	110,286
Transportation equipment	65,147	6,733	-	71,880
	$ 75,038,498	$ 3,524,189	$ 23,746	$ 78,538,941

NOTE 5 - CAPITAL ASSETS (Continued)

For the year ended June 30, 2020, the changes in capital assets for the Agency were as follows:

	Balance July 1, 2019	Additions	Disposals	Balance June 30, 2020
Non-depreciable capital assets				
Land and rights of way	$ 4,138,967	$ -	$ -	$ 4,138,967
Construction in progress	12,122,281	1,905,703	-	14,027,984
	16,261,248	1,905,703	-	18,166,951
Depreciable capital assets				
Investment in State Water Project	149,062,702	5,129,609	-	154,192,311
Source of supply	15,774,603	-	-	15,774,603
Recharge facilities	1,351,614	-	-	1,351,614
Technical equipment	94,439	-	-	94,439
Office building	1,508,644	-	-	1,508,644
Solar equipment	120,384	-	-	120,384
Furniture and fixtures	129,857	-	-	129,857
Transportation equipment	78,613	-	-	78,613
	168,120,856	5,129,609	-	173,250,465
	$ 184,382,104	$ 7,035,312	$ -	$ 191,417,416

For the year ended June 30, 2020, the changes in accumulated depreciation and amortization for the Agency were as follows:

	Balance July 1, 2019	Additions	Disposals	Balance June 30, 2020
Depreciable capital assets				
Investment in State Water Project	$ 60,345,627	$ 4,809,532	$ -	$ 65,155,159
Source of supply	6,903,346	495,984	-	7,399,330
Recharge facilities	1,047,501	67,581	-	1,115,082
Technical equipment	94,439	-	-	94,439
Office building	909,011	60,350	-	969,361
Solar equipment	102,336	12,031	-	114,367
Furniture and fixtures	124,261	1,352	-	125,613
Transportation equipment	49,424	15,723	-	65,147
	$ 69,575,945	$ 5,462,553	$ -	$ 75,038,498

NOTE 5 - CAPITAL ASSETS (Continued)

Construction in Progress is divided into 2 major categories. The first category consists of items that are generally considered tangible and have an identifiable estimated cost. Examples could be pipelines, valves, or fencing. The second category consists of items that may be intangible, or items for which a total cost estimate is not identifiable. Examples could be participation rights in studies for a future project, rights-of-way, or plans.

In Category 1, the Agency currently has expended about $1,016,608 and expects to expend and additional $350,000 to complete the projects; the projects are about 26% completed.

In Category 2, the Agency has expended about $3,625,482.

NOTE 6 - JOINT VENTURES (JOINT POWERS AGREEMENTS)

<u>The Association of California Water Agencies</u>
The Agency participates in a joint venture under a joint powers agreement (JPA) with the Association of California Water Agencies Joint Powers Insurance Authority (JPIA). The relationship between the Agency and the JPA is such that the JPA is not a component unit of the Agency for financial reporting purposes. Audited financial statements are available by contacting the JPIA at 2100 Professional Drive, Roseville, California 95661.

The Association of California Water Agencies Joint Powers Insurance Authority arranges for and provides insurance coverage for its nearly 365 member districts. JPIA is governed by a board of directors and each member agency is required to designate one representative from its local board of directors to participate in the JPIA board. From the board of directors, nine members of a ten-member executive committee are elected and delegated the authority to make JPIA's preliminary policy decisions relying upon input received from other standing and ad hoc committees and subcommittees. These policy decisions, along with other matters such as financial and claims data, are ultimately brought before the full board for review and/or ratification. The board controls the operations of the JPIA, including selection of management and approval of operating budgets, independent of any influence by the member agencies beyond their representation on the board. JPIA provides joint protection coverage for losses in excess of the member districts' individually specified self-insurance retention levels. Individual claims (and aggregate public liability and property claims) in excess of specified levels are covered by excess insurance policies purchased from commercial insurance carriers.

NOTE 6 - JOINT VENTURES (JOINT POWERS AGREEMENTS) (Continued)

Condensed audited financial information of the Association of California Water Agencies Joint Powers Insurance Authority for the years ended September 30, 2020 and 2019 are as follows:

	2020	2019
Total assets	$ 237,525,073	$ 212,099,851
Deferred outflows of resources	1,054,750	553,790
Total assets and deferred outflows of resources	$ 238,579,823	$ 212,653,641
Total liabilities	$ 113,075,164	$ 112,046,920
Deferred inflows of resources	1,817,452	1,672,219
Net position	123,687,207	98,934,502
Total liabilities, deferred inflows, and net position	$ 238,579,823	$ 212,653,641
Total revenues	$ 189,130,318	$ 173,647,293
Total expenses	(172,886,738)	(169,356,246)
Total other income	8,509,125	8,177,851
Change in net position	$ 24,752,705	$ 12,468,898

Delta Conveyance Finance Authority

The Agency participates under a joint powers agreement (JPA) with the Delta Conveyance Finance Authority (DCFA). The DCFA is a joint powers agency created in July 2018 as a conduit financing authority to assist the Department of Water Resources and the public water agency participants, currently all of whom are State Water Project Contractors, finance all or a portion of the Delta Conveyance Project. The Delta Conveyance Project is a major project that will deliver water from the Sacramento River near the northern end of Sacramento-San Joaquin Delta to the existing State Water Project and Central Valley Project pumping plants in the southern end of the delta. Its members consist of water agencies that contract with DWR for the purchase of water. Its operations are supported by the collection of contributions from its members. The governing board is made up of eleven representatives from member agencies. Audited financial statements are available by contacting the DCFA at 1121 L Street, Suite 1045, Sacramento, California 95814.

Condensed audited financial information of the Delta Conveyance Finance Authority, which is reported on a cash basis of accounting, for the year ended June 30, 2019, the most recent information available, is as follows:

Cash receipts	$ 401,900
Cash disbursements	175,870
Excess of receipts over disbursements	$ 226,030
Cash and investments at beginning of the year	-
Cash and investments at end of the year	$ 226,030

NOTE 7 - PENSION PLAN

(a) General Information about the Pension Plan

Plan Description

All full-time Agency employees are required to participate in the San Gorgonio Pass Water Agency Miscellaneous Plan with CalPERS, a cost-sharing multiple-employer public employee defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. A menu of benefit provisions as well as other requirements is established by State statutes within the Public Employee's Retirement Law. The Agency selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through Board approval. CalPERS issues a separate comprehensive annual report. Copies of CalPERS' annual financial report may be obtained from its Executive Office, 400 Q Street, Sacramento, CA 95811.

Benefits Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for improved non-industrial disability benefits after five years of service. The Agency has chosen the Optional Settlement 2W Death Benefit.

Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance any unfunded accrued costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Agency is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The Agency's total employer contributions were $451,073 and $288,162 for the fiscal years ended June 30, 2021 and 2020, respectively.

Active plan members who were hired before January 1, 2013, sometimes referred to as "Classic" employees, are required to contribute 8 percent of their annual covered salary. A resolution passed by the Board of the Agency directed the Agency to pay this portion, called Employer Paid Member Contributions (EPMC) through December 31, 2012. Beginning January 1, 2013, the Agency established two classes of employees, as dictated by the newly enacted Public Employees’ Pension Reform Act (PEPRA). By Board action, "Classic" employees began paying a portion of the EPMC starting January 1, 2013. For calendar year 2013, they contributed 1.0 percent of the annual covered salary as a pre-tax deduction. For calendar year 2014, they paid 2 percent of their annual covered salary. For calendar year 2015, and continuing, they pay 3 percent of their annual covered salary. At June 30, 2021 and 2020, the Agency's pickup of the employee's 5 percent share was $27,300 and $27,300, respectively. There are no PEPRA members employed by the Agency.

NOTE 7 - PENSION PLAN (Continued)

The plan's provisions and benefits at June 30, 2021 and 2020 are summarized as follows:

	Miscellaneous	
Hire date	Prior to January 1, 2013	On or after January 1, 2013
Benefit formula	3.0% at 60	2.0% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Final average compensation period	12 months	12 months
Sick leave credit	Yes	Yes
Retirement age	60	62
Monthly benefits as a percent of eligible compensation	3.00%	1.80% to 2.50%
Cost-of-living adjustment	4.0% maximum	4.0% maximum
Required employee contribution rates		
2021	3.00%	8.00%
2020	3.00%	8.00%
Required employer contribution rates		
2021	17.392%	N/A
2020	16.413%	N/A

Net Pension Liability

The Agency's net pension liability for the Plan is measured as the proportionate share of the collective net pension liability of the Plan. At June 30, 2021 and 2020, the Agency reported the following net pension liability measured as of June 30, 2020 and 2019, respectively:

	2021		2020	
	Amount	Proportion	Amount	Proportion
Total pension liability	$ 4,041,405	0.02136%	$ 3,783,873	0.02104%
Fiduciary net position	3,482,989	0.02369%	3,156,613	0.02258%
Net pension liability	$ 558,416	0.00612%	$ 627,260	0.00784%

The Agency's proportion of the collective net pension liability decreased by 0.00172% since the last measurement date.

NOTE 7 - PENSION PLAN (Continued)

(b) Actuarial Methods and Assumptions Used to Determine Total Pension Liability
For the measurement period ending June 30, 2020 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2019 total pension liability determined in the June 30, 2019 actuarial accounting valuation. For the measurement period ending June 30, 2019 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2018 total pension liability determined in the June 30, 2019 actuarial accounting valuation.

The June 30, 2020 and 2019 total pension liability was based on the following actuarial methods and assumptions:

Actuarial cost method		Entry age normal in accordance with the requirements of GASB Statement No. 68
Actuarial Assumptions:		
Discount rate	2020	7.15%
	2019	7.15%
Inflation	2020	2.50%
	2019	2.50%
Salary increases		Varies by entry age and service
Investment rate of return	2020	7% net of pension plan investment expenses, including inflation
	2019	7.15% net of pension plan investment expenses, including inflation
Mortality rate table[1]		Derived using CalPERS' membership data for all funds
Post-retirement benefit increase		Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies

[1] *The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.*

All other actuarial assumptions used in the June 30, 2020 and 2019 valuations were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

NOTE 7 - PENSION PLAN (Continued)

Discount Rate
The discount rate used to measure the total pension liability at June 30, 2020 and 2019 for was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Long-Term Expected Rate of Return
The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS considered both short-term and long-term market return expectations as well as the expected pension fund (Public Employees' Retirement Fund) cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

NOTE 7 - PENSION PLAN (Continued)

The table below reflects long-term expected real rate of return by asset class.

Asset Class	New Strategic Allocation		Real Return Years 1-10[1]	Real Return 11+[2]	Real Return Years 1-10[1]	Real Return 11+[2]
	2020	2019	2020	2020	2019	2019
Global equity	50.00%	50.00%	4.80%	5.98%	4.80%	5.98%
Fixed income	28.00%	28.00%	1.00%	2.62%	1.00%	2.62%
Inflation sensitive assets	0.00%	0.00%	0.77%	1.81%	0.77%	1.81%
Private equity	8.00%	8.00%	6.30%	7.23%	6.30%	7.23%
Real estate	13.00%	13.00%	3.75%	4.93%	3.75%	4.93%
Liquidity	1.00%	1.00%	0.00%	-0.92%	0.00%	-0.92%
Total	100.00%	100.00%				

[1] An expected inflation of 2.00 percent used for this period
[2] An expected inflation of 2.92 percent used for this period

<u>(c) Sensitivity of the Net Pension Liability to Changes in the Discount Rate</u>
The following presents the Agency's proportionate share of the collective net pension liability of the plan as of the measurement date calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is 1.00 percentage-point lower or 1.00 percentage-point higher than current discount rate:

Measurement Date	Discount Rate -1.0%	Current Discount	Discount Rate +1.0%
	(6.15%)	(7.15%)	(8.15%)
2020	$ 1,096,229	$ 558,416	$ 114,039
	(6.15%)	(7.15%)	(8.15%)
2019	$ 1,136,203	$ 627,260	$ 207,164

<u>Pension Plan Fiduciary Net Position</u>
Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial report.

NOTE 7 - PENSION PLAN (Continued)

(d) Pension Expense, Deferred Outflows and Deferred Inflows of Resources Related to Pensions
For the year ended June 30, 2021 and 2020, the Agency recognized pension expense of $224,033 and $220,856, respectively. At June 30, 2021 and 2020, the Agency deferred inflows and outflows of resources related to pensions are as follows:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
	2021	2020	2021	2020
Pension contributions subsequent to measurement date	$ 451,073	$ 288,162	$ -	$ -
Net difference between projected and actual earnings on pension plan investments	16,589	-		10,966
Difference between actual and projected contributions	187,897	140,363	6	680
Changes in assumptions		29,911	3,983	10,603
Difference between expected and actual experience	28,776	43,566		3,375
Change in proportion	6,262	23,932	135,326	107,224
Total	$ 690,597	$ 525,934	$ 139,315	$ 132,848

The amounts above are net of outflows and inflows recognized in the pension expense. The $451,073 and $288,162 reported as deferred outflows of resources related to contributions subsequent to the measurement date are recognized as a reduction of the net pension liability in the fiscal years ended June 30, 2022 and 2021, respectively.

The deferred outflows and inflows of resources, other than contributions subsequent to measurement date, will be recognized in future pension expense as follows:

Fiscal Year Ending June 30	Deferred Inflows (Outflows) of Resources 2021	Deferred Inflows (Outflows) of Resources 2020
2021	$ 35,657	74,986
2022	35,678	13,058
2023	20,919	14,663
2024	7,955	2,217
2025	-	-
	$ 100,209	$ 104,924

NOTE 8 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The Agency offers health care benefits to active and retired employees, as well as their qualified dependents through CalPERS. The CalPERS plan is an agent multiple-employer plan governed by the Public Employees' Medical & Hospital Care Act (PEMHCA). Under PEMHCA, health coverage for the employee continues into retirement for employees who have reached at least age 50 with a minimum of five years of service. Eligible retirees may enroll in any of the plans available through the CalPERS program. The Agency pays the entire cost of coverage for the retiree and their dependents. The Agency provided health care benefits that continue for the life of the retiree and the spouse. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 "P" Street, Sacramento, California 95814.

At June 30, 2021 and 2020, the following employees were covered by the benefit terms:

	Number of Covered Participants
Inactive plan members or beneficiaries currently receiving benefit payments	3
Inactive plan members entitled to but not yet receiving benefit payments	-
Active plan members	4
Total	7

Contribution requirements of the Agency are established by Ordinance and may be amended through board action to update the original Ordinance. For the year ended June 30, 2021 and 2020, the Agency's average contribution rate was 7.1 percent and 12.6 percent of covered-employee payroll, respectively. Employees are not required to contribute to the plan.

Net OPEB Liability

The Agency's net OPEB liability was measured as of June 30, 2020 and 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

NOTE 8 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Actuarial assumptions: The total OPEB liability in the June 30, 2020 and 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2020	2.75% annually
	2019	2.75% annually
Discount rate	2020	6.75%
	2019	6.75%
Long-term expected rate of return on	2020	6.75% net of investment expenses
investments	2019	6.75% net of investment expenses
Healthcare cost trend rates		
Pre-Medicare	2020	7.25% for 2021, decreasing to 4.00% for 2076 and later
	2019	7.25% for 2021, decreasing to 4.00% for 2076 and later
Medicare	2020	6.30% for 2021, decreasing to 4.00% for 2076 and later
	2019	6.30% for 2021, decreasing to 4.00% for 2076 and later

Mortality rates were based on the CalPERS experience study, with adjustments for mortality improvements projected with Mortality Improvement Society of Actuaries Scale MP-2019.

The actuarial assumptions used in the June 30, 2020 and 2019 valuation were based on the results of a CalPERS actuarial experience study for the period 1997-2015.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class Component	Target Allocation *		Long-Term Expected Real Rate of Return	
	2020	2019	2020	2019
Equities	59%	59%	4.82%	4.82%
Fixed income	25%	25%	1.47%	1.47%
TIPS	5%	5%	1.29%	1.29%
Commodities	3%	3%	0.84%	0.84%
REITs	8%	8%	3.76%	3.76%
Total	100%	100%		

* Policy target effective October 1, 2018.

NOTE 8 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Discount rate: The discount rate used to measure the total OPEB liability at June 30, 2021 and 2020 was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that Plan Assets will always exceed benefit payments. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

<u>Changes in Assumptions</u>

Assumption related to the excise tax on high cost employer-sponsored health coverage was removed.

<u>Changes in the Net OPEB Liability</u>

The changes in the net OPEB liability for the plan for the year ended June 30, 2021 are as follows:

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	NET OPEB Liability (a) - (b)
Balances at June 30, 2020	$ 794,006	$ 767,611	$ 26,395
Changes for the year:			
Service cost	64,873	-	64,873
Interest	57,294	-	57,294
Assumption changes	(16,297)	-	(16,297)
Contributions - employer	-	70,211	(70,211)
Net investment income	-	26,844	(26,844)
Benefit payments	(20,161)	(20,161)	-
Administrative expense	-	(426)	426
Net changes	85,709	76,468	9,241
Balances at June 30, 2021	$ 879,715	$ 844,079	$ 35,636

NOTE 8 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

The changes in the net OPEB liability for the plan for the year ended June 30, 2020 are as follows:

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	NET OPEB Liability (a) - (b)
Balances at June 30, 2019	$ 971,839	$ 723,097	$ 248,742
Changes for the year:			
Service cost	73,296	-	73,296
Interest	69,685	-	69,685
Differences between expected and			-
actual experience	(289,302)	-	(289,302)
Contributions - employer	(5,992)	25,564	(31,556)
Net investment income	-	44,669	(44,669)
Benefit payments	(25,520)	(25,520)	-
Administrative expense	-	(199)	199
Net changes	(177,833)	44,514	(222,347)
Balances at June 30, 2020	$ 794,006	$ 767,611	$ 26,395

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates: The following presents the net OPEB liability of the Agency, as well as what the Agency's net OPEB liability would be if it were calculated using a discount rate that is 1.00 percentage-point lower or 1.00 percentage-point higher than the current discount rate:

	Discount Rate		
	1% Decrease (5.75%)	Current Rate (6.75%)	1% Increase (7.75%)
Net OPEB liability - June 30, 2021	$ 135,776	$ 35,636	$ (48,551)
Net OPEB liability - June 30, 2020	$ 119,174	$ 26,395	$ (51,673)

NOTE 8 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates:
The following presents the net OPEB liability of the Agency, as well as what the Agency's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1.00 percentage point lower or 1.00 percentage-point higher than the current healthcare cost trend rates:

	Healthcare Trend Rate		
	1% Decrease (6.25% to 4.0%)	Current Trend (7.25% to 4.0%)	1% Increase (8.25% to 4.0%)
Net OPEB liability - June 30, 2021	$ (67,511)	$ 35,636	$ 158,473
Net OPEB liability - June 30, 2020	$ (66,169)	$ 26,395	$ 136,467

OPEB plan fiduciary net position: Detailed information about the OPEB plan's fiduciary net position is available in the separately issued CalPERS financial report.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources
For the year ended June 30, 2021 and 2020, the Agency recognized OPEB benefit of $50,639 and OPEB expense of $25,148, respectively. At June 30, 2021 and 2020, the Agency reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
	2021	2020	2021	2020
Differences between expected and actual experience	$ -	$ -	$ 66,762	$178,032
Changes and assumptions	-	-	10,889	3,687
Net difference between projected and actual earnings on OPEB plan investments	14,104	-	-	11,919
Employer contributions made subsequent to the measurement date	38,788	70,211	-	-
Total	$ 52,892	$ 70,211	$ 77,651	$193,638

NOTE 8 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

The $38,788 and $70,211 reported as deferred outflows of resources related to contributions subsequent to the measurement date are recognized as a reduction of the net pension liability in the fiscal years ended June 30, 2022 and 2021, respectively. Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ending June 30:	Deferred Outflows/(Inflows) of Resources 2021	Deferred Outflows/(Inflows) of Resources 2020
2021	-	$ (119,524)
2022	$ (75,864)	(74,092)
2023	1,452	(849)
2024	5,845	827
2025	5,020	-
	$ (63,547)	$ (193,638)

NOTE 9 - RISK MANAGEMENT

The Agency is exposed to various risks of loss related to torts, theft, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance through participation in the Association of California Water Agencies Joint Powers Insurance Authority. See Note 6. The insurance purchased is for liability, property and workers' compensation insurance and there are various self-insured retention levels, similar to a deductible, per occurrence.

NOTE 10 - CONTRACTUAL COMMITMENTS

The Agency has entered into various contractual agreements for engineering, construction, and consulting services. As of June 30, 2021, the remaining contractual commitment for geologic studies and monitoring is $113,923, none for construction service, and for various other agreements is $497,153. As of June 30, 2020, the remaining contractual commitment for geologic studies and monitoring is $251,455, for construction service is $97,168, and for various other agreements is $932,513. These commitments have not been recorded in the accompanying financial statements.

NOTE 11 - RISK AND UNCERTAINTIES

<u>COVID-19</u>
As a result of the spread of the COVID-19 coronavirus, economic risks and uncertainties have arisen which could negatively impact the Agency's operations and its financial results. However, management does not anticipate any negative impact at this time.

NOTE 12 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 14, 2021, the date the financial statements were available to be issued. No events occurred through this date requiring disclosure.

SUPPLEMENTARY INFORMATION - UNAUDITED

Schedule of Agency Contributions – CalPERS Pension Cost Sharing Plan
For the last ten fiscal years[1]

	2021	2021	2019	2018	2017	2016	2015
Actuarially determined contribution	$ 151,073	$ 138,162	$ 121,289	$ 105,338	$ 95,564	$ 109,010	$ 112,491
Contributions in relation to the actuarially determined contribution	(451,073)	(288,162)	(321,289)	(105,338)	(95,564)	(109,010)	(112,491)
Contribution deficiency (excess)	$ (300,000)	$ (150,000)	$ (200,000)	$ -	$ -	$ -	$ -

Notes to Schedule

Valuation date

Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumption used to determine contribution rates

Actuarial cost method	Entry age, level percentage of payroll
Amortization method and period	Level dollar amount over closed 18-year period
Asset valuation method	Market value, no smoothing
Inflation	2.75%
Investment rate of return	6.75%
Healthcare cost trend rates	
Pre-Medicare	7.25% for 2021, decreasing to 4.00% for 2076 and later
Medicare	6.30% for 2021, decreasing to 4.00% for 2076 and later
Mortality, Disability, Termination, Retirement	
Retirement	CalPERS 1997-2015 Experience Study
Mortality Improvement	Mortality projected with Mortality Improvement Society of Actuaries Scale MP-2019

Organization and Description of the Agency

San Gorgonio Pass Water Agency (the "Agency") was formed in 1961 by the Legislature of the State of California through the enactment of special legislation. The Agency was formed for the purpose of importing water by contracting for participation in the State Water Project of the State Department of Water Resources and for any other activities authorized by the Legislature as proper for the Agency to conduct. The Agency's contract for water provides for delivery of up to 17,300 acre feet of water per year, effective January 1, 2008.

The Agency is committed to pay its proportionate share of the capital and other costs of the State Water Project, including the capital costs in connection with both the transportation facilities and the conservation facilities, the operation and maintenance costs in connection therewith, and the variable costs incident to the actual delivery of water. Annually, the State Department of Water Resources issues a bulletin known as the 132 Series in which the capital and operating costs are estimated for the life of the project. On June 30 of each year, they bill for the costs to be paid during the next succeeding calendar year. The capital costs are being capitalized as utility plant while the other costs are charged to operations. The capital costs are being amortized on a unit rate based on water deliveries projected over the life of the State Water Project to the year 2035.

SAN GORGONIO PASS WATER AGENCY
SCHEDULE OF BOARD OF DIRECTORS AND INSURANCE COVERAGE - UNAUDITED
June 30, 2021

Officers, Directors, and Senior Management

The officers, directors, and senior management of the Agency are listed below:

	Term Expires
Steve Lehtonen, President	December 2022
Larry Smith, Vice President	December 2024
Blair Ball, Director	December 2022
Ron Duncan, Director	December 2024
Chander P. Letulle, Director	December 2024
Robert Ybarra, Director	December 2022
Mickey Valdivia, Treasurer	December 2024
Lance Eckhart, General Manager and Secretary of the Board	N/A

Insurance Coverage

The agreement with the Joint Powers Insurance Authority (JPIA) is for liability, property, and workers' compensation insurance.

For liability coverage, the first $2,000,000 of basic coverage is pooled self-insured coverage. For coverage in excess of $2,000,000, the JPIA has a number of excess liability policies and insures the Agency for the $2,000,000 base through $60,000,000.

For property coverage, there is a $1,000 deductible for buildings, fixed equipment and personal property, and a $500 deductible for vehicles.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the Board of Directors and Management
San Gorgonio Pass Water Agency
Beaumont, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of San Gorgonio Pass Water Agency (the Agency), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated October 14, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Riverside, California
October 14, 2021
