

# ***San Geronio Pass Water Agency***

**DATE:** March 2, 2026  
**TO:** Board of Directors  
**FROM:** Lance Eckhart, General Manager  
**BY:** Matt Howard, Operations Manager  
**SUBJECT: AUTHORIZATION TO PURCHASE 2026 DODGE RAM 2500**

## **RECOMMENDATION**

Staff recommends that the Board authorize the purchase of a 2026 Dodge Ram 2500 pickup through the Sourcewell cooperative purchasing program, and recommend the Board approve the purchase in an amount not to exceed \$86,000, including all applicable taxes and fees.

## **PREVIOUS CONSIDERATION**

- Board of Directors – January 5, 2026: The Board of Directors considered adding a new position to the Agency staff, a Water Systems Operator.
- Board of Directors – January 26, 2026: The Board of Directors approved adding a new position to the Agency staff, a Water Systems Operator.
- Board of Directors – February 2, 2026: The Board approved a budget adjustment of the Vehicles line item in order to fund the purchase of an additional Operations vehicle.
- Finance and Budget Committee – February 19, 2026: The Committee was presented with this new vehicle purchase and the Committee recommended that we receive quotes from a comparable Ford and Chevrolet truck models. The Committee recommended this item be moved to the next available Board of Directors meeting for approval.

## **BACKGROUND**

The addition of an Operations staff member will necessitate purchasing supplies and equipment that will allow them to complete the tasks assigned to them. One of the items they will need is a vehicle that is rugged enough to get to the various locations of Agency property, will allow them to carry tools necessary to complete their assigned tasks, and has sufficient room for occasional passengers.

The Agency currently owns a 2015 Dodge Ram 2500 pickup, which has been effectively used to meet these needs for the last 10 years. After reviewing other alternative vehicles, the 2026 Dodge Ram was chosen for its equipment, value, and proven track record.

The purchase of a 2026 Dodge Ram aligns with Staff's overall fleet strategy by filling a near-term need with a reliable and cost-effective vehicle, while still complying with all applicable CARB regulations.

## **ANALYSIS**

The 2026 Dodge Ram 2500 is recommended as an additional vehicle to meet the needs of the Operations staff to fulfill their duties in relation to the maintenance and operational requirements of the Agency. Staff considered these requirements and compared them to various makes of pickups with various equipment packages and power types. Staff also took recent CARB requirements into consideration by analyzing various operational, reliability and longevity scenarios, and determined that this vehicle best fits the needs of the Agency.

Recently, the Agency purchased a replacement Ford Explorer through the Sourcewell procurement agreement. In considering various purchasing options, Sourcewell was chosen as the most efficient and cost-effective.

Sourcewell is a government agency and cooperative purchasing organization that streamlines procurement for public agencies by offering access to competitively solicited contracts. It operates under the laws of public procurement, allowing government agencies to make purchases without conducting their own formal bidding processes. Sourcewell contracts are awarded through a transparent and competitive solicitation process, ensuring that agencies receive quality products at the lowest responsible cost. This helps save time and resources while maintaining compliance with procurement regulations.

The vehicle recommended for purchase, a 2026 Dodge Ram 2500 pickup, is available through Sourcewell's competitively bid contract with National Auto Fleet Group, which offers favorable government pricing and terms that are not available through standard retail channels. Additional after-market equipment, such as safety lighting, will be installed separately after the vehicle is delivered.

The Finance and Budget Committee requested a cost comparison of similarly equipped vehicles from Ford and Chevrolet. Using National Auto Fleet Group to configure comparable models with similar options and specifications, the following pricing was obtained:

- 2026 Ram 2500 Power Wagon: \$78,842.04
- 2026 Ford F-250 Tremor: \$80,055.30
- 2026 Chevrolet Silverado 2500HD ZR2: \$83,846.57

These figures reflect vehicle pricing provided by National Auto Fleet Group for similarly outfitted vehicles across the three manufacturers and does not include applicable taxes and fees.

## **FISCAL IMPACT**

The cost of this vehicle will be charged to the line item “Vehicles” (line 113) in the General Fund, or the Green Bucket. The total cost will not exceed \$86,000, which includes the base vehicle price, applicable taxes, license and registration. The Board approved a budget adjustment at its meeting on February 5, 2026 to provide for this purchase. The revised budget total is \$145,000, of which about \$56,000 has been spent.

## **AGENCY'S STRATEGIC PLAN APPLICATION**

The purchase of this vehicle is consistent with the Agency's Mission Statement to support the region's quality of life through sustainable water management and with the following strategies:

- Ensure a reliable delivery system that advances efficiency and resiliency.
- Sustain long-term financial stability by engaging in prudent planning to guide informed decision-making.
- Serve the public with dedication, determination, transparency, collaboration, and a commitment to expanding knowledge.

## **ACTION**

Staff recommends that the Board authorize the purchase of a 2026 Dodge Ram 2500 pickup through the Sourcewell cooperative purchasing program, and recommend the Board approve the purchase in an amount not to exceed \$86,000, including all applicable taxes and fees.
