SUBJECT: ADOPT RESOLUTION 2026-07 APPROPRIATIONS LIMIT

RECOMMENDATION

Adopt Resolution 2026-07 Appropriations Limit for FY 2026-27

BACKGROUND

The Gann Limit was approved by voters on November 6, 1979 and incorporated into the California Constitution in Article XIII B. Also known as the Appropriations Limit, this bill was intended to keep California legislators from overspending limited tax resources during a time when other voter-approved measures severely limited available tax revenue (think Proposition 13).

Ballot initiatives in 1988 and 1990 weakened the Gann Limit, so that today, the calculation and adoption of the Appropriations Limit by public agencies is considered a housekeeping item, with little or no impact on an agency's ability to disburse tax revenue.

ANALYSIS

The calculation for the current fiscal year starts with the previous year's amount, then adjusts it by multiplying it by the factors for California per-capita personal income and the population change for Riverside County. This information is provided by the California Department of Finance, which posts it on their website.

The attached calculation of the Appropriations Limit for the San Gorgonio Pass Water Agency shows that we are limited to spending a bit under \$95 million in FY 2026-27. The combined expenditure budgets subject to the limit for the Agency are expected to total around \$28 million, so the Agency is well within the Appropriations Limit for FY26-27.

FISCAL IMPACT

There is no fiscal impact as a result of this action.

ACTION
